MRO BEER  
Live in 2022

*"Aviation Week events are an absolutely great opportunity for the industry to share experiences, meet new challenges, and network on actual topics and priorities. MRO BEER brings a lot of new contacts, useful knowledge and an understanding of trends and future developments in MRO and the airline industry."*

**Alevtina Fursayeva**  
Executive Director,  
ABC Management

*"Virtual events like MRO BEER are beneficial for me. A lot of information is pressed into a relatively short time, not long discussions but focused and to the point. Virtual events are a good opportunity to be updated about the situation! However F2F meetings can't be replaced."*

**Vladimir Stulancák**  
CEO,  
Job Air Technic

*"It's really an important event to keep the aerospace market in touch, sharing experiences and practices to improve our day by day. MRO BEER generated really good information to share with my team and colleagues and also provided a helicopter overview to avoid feeling isolated during the pandemic."*

**Armando Mariano Filho**  
Director of Material Management,  
Vallair Solutions
